

Adı-Soyadı:
Öğrenci no:

T.C.
BİLECİK ŞEYH EDEBALI ÜNİVERSİTESİ
SAĞLIK HİZMETLERİ MESLEK YÜKSEKOKULU
OPTİSYENLİK PROGRAMI MESLEKİ TERMİNOLOJİ DERSİ ÖDEVİ

Oculus / Ophthalmos / (okülüs /oftalmos):

Bulbus oculi (bulbus okuli):

Ocular (oküler):

Optic (optik):

Orbita (orbita):

Blepharon / Palpebra / Eyelid (blefaron / palpebra / aylid):

Cilia(siliya):

Pupilla / Pupil (pupilla / pupil):

Iris (iris):

Lens (lens):

Corpus ciliare/ ciliary body (Corpus siliyare / siliari badi):

Sclera (sklera):

Choroidea / Choroid (koroidea / korioidea / koroid):

Conjunctiva (konjunktiva):

Cornea (kornea):

Retina (retina):

Uvea (uvea):

Blind spot / Optic disk/ Optic papilla (blaynd spot / optik disk/optik papilla):

Nervus ophthalmicus / Ophthalmic nerve (nervus oftalmikus / oftalmik nerve):

Nervus opticus / Optic nerve (nervus optikus / optik nerve):

Scotoma (skotom):

Dacryocyst (dakriyosist):

Lacrimal duct / ductus lacrimalis (lakrimal duk / duktus lakrimalis):

Glandula lacrimalis / lacrimal glands (glandula lakrimalis / lacrimal glands):

Amblyopia (Ambliyopi):

Anisopia (anizopi):

Ambiopia (ambiyopi):

Blind (blaynd):

Arcus senilis (arkus senil):

Cataract (katarakt):

Glaucoma (glokom):

Hypermetropia (hipermetropi):

Myopia (miyopi):

Presbyopia / Presbytism (presbiyopi / presbitizm):

Conjunctivitis (konjunktivit):

Hordeolum (hordeolum):

Anisometropia:

Astigmatism (astigmatizm):

Blepharitis (blefarit):

Blepharoptosis (blefaroptozi):

Blepharophimosis (blefarofimoz):

Blepharospasm (blefarospazm):

Blepharospazm (bleforasineÇi):

Ectropion (ektropyon):

Entropion (entropyon):

Choroidal hemorrhage (koroidal hemoraji):

Choroiditis (koroidit):

Corneal injury (korneal injuri):

Interstitial keratitis (interstisyel keratit):

Keratitis (keratit):

Keratoconus (keratokonus):

Keratomalacia (keratomalasi):

Leukoma (lököm):

Nebula (nebula):

Pterygium (pterijium):

Xerophthalmia (kseroftalmi):

Dacryoadenitis (dakriyoadenit):

Dacryocystitis (dakriyosistit):

Keratoconjunctivitis sicca (keratokonjuktivit sikka):

Retinopathy (retinopati):

Retinoblastoma (retinoblastoma):

Retinal detachment (retinal detiÇman):

Retinitis pigmentosa (pigmenter retinit):

Retinitis (retinit):

Episcleritis (episklerit):

Hypopyon (hipopyon):

Iridocyclitis (iridosiklit):

Iritis (irit):

Lentitis (lentit):

Orbital cellulitis (orbital selülit):

Scleritis (sklerit):

Ophthalmomalacia (oftalmomalazi):

Ophthalmophthisis (oftalmoftiz):

Ophthalmomycosis(oftalmomikoz):

Ophthalmoplegia / Ophthalmoparalysis (oftalmopleji / oftalmoparalizi):

Optik glioma (optik gliyom):

Optik neuritis (optik nevrit):

Panophthalmitis / Panophthalmia (panoftalmit / panoftalmi):

Papillitis (papillit):

Uveitis (uveitis):

Retrolental fibrodysplasia (retrolental fibrodisplazi):

Keratoscope (keratoskop):

Keratotomy (kekeratoskopi):

Keratometer / Ophthalmometer (keratometre / oftalmometre):

Keratometry (keratometri):

Ophthalmoscope (oftalmoskop):

Ophthalmoscopy (oftalmoskopi):

Ophthalmotometry (oftalmotonometri):

Photometer (fotoptometre):

Photometry (fotoptometri):

Retinoscope (retinoskop):

Retinoscopy (retinoskopi):

Blepharoplasty (blefaroplasti):

Dacryocystotomy (dakriyosistomi):

Tarsoplasty (tarsoplasti):

Tarsorrhaphy (tarsorafi):

Corneal graft (korneal greft):

Corneal transplant / Corneal transplantation (korneal trasplant / korneal trasplantasyon):

Keratocentesis (keratosentez):

Kerectomy (kerektomi):

Keratoplasty (keratoplasti):

Lens extraction (lens ekstraksiyon):

Parsplana lensectomy (parsplana lensektomi):

Evisceration (evisserasyon):

Extracapsular cataract extraction (ekstrakapsular katarakt ekstraksiyon):

Intracapsular cataract extraction (intrakapsular katarakt ekstraksiyon):

Amaurosis (amoroz):

Amblyopia (ambliyopi):

Color blindness (kolor blayndnis):

Diplopia (diplopi):

Epiphora (epifora):

Myosis (myozis) :

Mydriasis (midriyazis) :

Exophthalmia / Exophthalmus / Exophthalmos (egzoftalmi / egzoftalmus / egzoftalmos):

Nystagmus / Nystaxis (nistagmus / nistaksis):

Photophobia (fotofobi):

Photopia (fotofi):

Photopsia (fotopsi):

Strabismus (strabismus):
